APPROVAL OF STATE ENGINEER
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 48786 is issued subject to the terms and conditions imposed in said Permit 48786 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.  No perforations shall be put in the production casing from ground level to 100 feet.  The total combined duty of water under Permits 44613, 44614, 44615, 44616, 48783, 48785, 48789, 48790, 49612, 49613 and 49614 shall not exceed 628 million gallons annually.  (CONTINUED ON Page 2) The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
·
to exceed 2.67 cubic feet per second, but not to exceed 628
million gallons annually.
Work must be prosecuted with reasonable diligence and be completed on or before
Proof of completion of work shall be filed before.  December 4, 1987
Application of water to beneficial use shall be made on or before November 4, 1990
Proof of the application of water to beneficial use shall be filed on or before December 4, 1990
Map in support of proof of beneficial use shall be filed on or before
Completion of work filed. AUG 7 1987 IN TESTIMONY WHEREOF, I. PETER G. MORROS.
State Engineer of Nevada, have hereunto set my hand and the seal of
my office, this 14th day of August,
Certificate No
2407 (Rev. 6-81)  State Engineer

## (PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
